Assessing a Claim

Once any claim is made, Brintons will arrange a mutually convenient time to inspect the installed carpet to assess that claim.

If, after inspection, Brintons determines that the nature of the particular complaint is covered by this warranty, then Brintons will, at its discretion:

- repair that portion of the carpet that is found to be faulty, including bearing any installation costs for that repair; or
- replace that portion of the carpet that is found to be faulty, including bearing any installation costs for that replacement; or
- compensate you on the basis of the following formula:

$$\text{Compensation} = \text{PP} \times \frac{(\text{WP} - \text{PI})}{\text{WP}} \times \frac{\text{AA}}{\text{AI}}$$

Where:

PP = purchase price of the carpet

WP = warranty period (in months)

PI = period that the carpet has been installed (rounded to the nearest whole month)

AA = area of carpet affected

AI = area of carpet installed

Recommendations

As with all installations, there may be specific areas that are subject to very heavy wear conditions, such as turning points and on stairs. Brintons recommends that you purchase additional carpet now so that you have stock to replenish these areas if required. Brintons recommends the use of barrier matting in line with Brintons Cleaning & Maintenance Guidelines.
